

CITATION

Dr. Michael Easton 2008 Provincial Geologists Medal

Mike Easton has been dedicated to public service and geoscience in Ontario for more than 25 years and is an exemplary professional Provincial Geologist. Mike is meticulous in his methodology and extremely productive in his research and mapping. His expertise and cutting edge research contributions to Precambrian geology, metamorphic and igneous petrology and Ontario's Grenville Subprovince are recognized nationally and internationally. Less-well known is the tremendous service Mike has performed since 1990 in his role as the Geological Association of Canada representative on the North American Commission on Stratigraphic Nomenclature.

Mike is committed to client-focused work and providing the best possible objective and technically current geological data and information to the public and explorationists. Mike frequently establishes productive collaborative linkages with academia, industry and other geological surveys to solve geoscience problems. Mike is a mentor to numerous undergraduate and graduate level students and is a leader in contributing to a new generation of geoscientists with expertise in field mapping techniques.

Mike is very active in the geological community and gives tirelessly to the national geoscience community. He has been instrumental in major programs of the Geological Association of Canada and in actively promoting Canadian geoscience for the benefit of all.
